Education

University of California, Berkeley Berkeley, CA

2021 – Spring 2022, Fall 2023 – present

Bachelor of Arts in Cognitive Science & Data Science

Expected Graduation: December 2026

- Relevant coursework: CS61a Introduction to Computation & Programming, Data 8, Data 100, CS195: Social Implications of Computing Technology, Data 104: Human Contexts & Ethics of Data, Info 103: History of Information, various Cognitive Science courses, Phonetics, Phonology.

College of Marin – Kentfield, CA

2021 – 2022

- Relevant coursework: logic, political science, history of ancient & modern philosophy, data structures.

Moorpark College – Moorpark, CA

2020 – 2021

- Dean's List, 2020
- Relevant coursework: C++, logic, philosophy, environmental science.

Santa Susana High School – Simi Valley, CA

Graduated 2012

Relevant Experience

Teaching Assistant

CS195: Social Implications of Computing – UC Berkeley

August 2024 – December 2024

- Facilitated discussions on ethical and social issues related to technology and computing, including giving a lecture for the course and holding weekly Harkness-style discussions with a small group of motivated students enrolled in the course's honors section.
- Assisted in grading assignments and provided feedback on students' work.
- Supported the professor in developing course materials and managing classroom activities.
- Maintained a Jekyll-based website for students to access course materials and announcements.

Service Technician & Manager

The Pool Patrol – Los Angeles, CA

2012 – 2016, 2018 – 2022

- Managed daily operations, client relations, and service schedules for my family's pool service business, in addition to working a pool route.
- Supervised and trained a team of technicians in pool maintenance and repair services.
- Increased customer retention through excellent service and problem-solving.
- Managed and shut down business following my father's passing in May 2022, taking the year off from UC Berkeley and returning in Fall 2023.

Recording Studio Intern

The Panda Studios – Fremont, CA

December 2016 – May 2018

- Managed schedules and recording sessions for recording artists.
- Assisted in audio engineering tasks and ensured smooth session operations.

Skills

- Programming: Python (various packages including Numpy, Scikit-Learn, PyTorch, Tensorflow), C++, Machine Learning, Natural Language Processing, Exploratory Data Analysis
- Web Development: Markdown, HTML, CSS
- Tools: Git, Jupyter, VSCode, Jekyll, Pro Tools
- Soft Skills: Team Leadership, Project Management, Public Speaking

Projects

Jekyll-based Blog Site Maintenance for CS195

- Developed and maintained a blog site using Jekyll used by all students in the course, working with Liquid templates, CSS, HTML, Git, and Markdown.

Gave Computing Ethics Lecture for CS195

- Self-studied information on Timnit Gebru's ejection from Google, wrote and gave lecture on the subject and its implications to students in lecture hall.

Extracurriculars

- **Member of the Berkeley Student Cooperative:** Performing cook shift for a group of 60 students from Fall 2023 to the present semester and actively engaging in weekly council.
- **Member of CHAOS, Cal Climbing, and Cal Ski & Snowboarding Club**
- **CHAOS Families Officer Fall 2024:** Organized accessible outdoor events to build community in the re-entry and transfer community at Cal.
- **Band Tour Experience Summer 2019:** Managed logistics and finances while performing across the country in a national theater tour, opening for my favorite band. Decided to return to college following several campus tours in New England.
